

ACADEMIC LEARNING COMPACTS

COLLEGE OF BUSINESS ADMINISTRATION MANAGEMENT - B.S.B.A.

Discipline Specific Knowledge, Skills, Behavior and Values

- 1. Data Driven Decision-Making**
Students will demonstrate decision-making that is supported by the analysis of data rather than intuition or casual observation.
- 2. Use of Information Technology**
Students will demonstrate information fluency through the use of technological tools (e.g., spreadsheets, digital communication devices, audio/video recording, etc.) used in business.
- 3. Teamwork**
Students will demonstrate effective teamwork by collaborating in group settings to solve selected business problems. They will show support and cooperation with teammates, share the workload and responsibility for the outcomes, provide timely information to the group, and communicate openly and fairly.

Critical Thinking

- 1. Critical Thinking**
Students graduating from the Management BSBA program will demonstrate critical thinking skills by determining the source of a problem, identifying and defining key issues, using and analyzing relevant information, evaluating the results, and demonstrating sound reasoning and conclusions.
- 2. Data Driven Decision-Making**
Students will demonstrate decision-making that is supported by the analysis of data rather than intuition or casual observation.

Communication

- 1. Written Communication**
Students will demonstrate proficiency in business writing that communicates effectively, accurately, and in a professional style.

Assessment of Management - B.S.B.A. Outcomes

These outcomes will be assessed using a variety of assessment methods, including:

- Exams
- Individual and team projects

- **Case studies**
- **Written papers**
- **Oral presentations**
