# Link to UCF Strategic Planning

Administrative units and academic programs should align one or more elements of an IE Assessment plan with the UCF Collective Impact Strategic Plan (i.e., please see sections that identify granular metrics and supporting strategies). In addition, you may link to supporting strategic plans at any subordinate level.

- Discuss implementation in your DRC
- What were the benefits and challenges for faculty and staff members?
- Were their differences in adoption based on program or unit type (e.g., degree program vs. Dean's Office )?

# Revised IE Plan/Results Rubric

- Provide feedback on the rubric and revised template
