

**College of Business Administration
Academic Learning Compacts**

Marketing - B.S.B.A.

Discipline Specific Knowledge, Skills, Behavior and Values

1. Critical Thinking

Students graduating from the BSBA program in Economics will demonstrate critical thinking by determining the source of a problem, identifying and defining key issues, using and analyzing relevant information, evaluating the results, and demonstrating sound reasoning and conclusions.

2. Data Driven Decision-Making

Students will demonstrate decision-making that is supported by the analysis of data rather than intuition or casual observation.

3. Use of Information Technology

Students will demonstrate information fluency through the use of technological tools (e.g., spreadsheets, digital communication devices, audio/video recording, etc.) used in business.

4. Teamwork

Students will demonstrate effective teamwork by collaborating in group settings to solve selected business problems. They will show support and cooperation with teammates, share the workload and responsibility for the outcomes, provide timely information to the group, and communicate openly and fairly.

Critical Thinking

1. Critical Thinking
