Statistics - B.S.

Discipline Specific Knowledge, Skills, Behavior and Values

1. Students will demonstrate an understanding of probability and distribution theory.
2. Students will identify and carry out statistical procedures such as regression analysis and analysis of variance.
3. Students will convert raw data into a form which lends itself to statistical investigation.

Critical Thinking

1. Students will demonstrate an understanding of probability and distribution theory.
2. Students will identify and carry out statistical procedures such as regression analysis and analysis of variance.
3. Students will convert raw data into a form which lends itself to statistical investigation.

Communication

1. Students will convert raw data into a form which lends itself to statistical investigation.

Assessment of Statistics - B.S. Outcomes

These outcomes will be assessed using a variety of assessment methods, including:

- Tests/exams
- Projects
- Presentations
